

BookFlix and TrueFlix on iPad

South Brunswick Public Library
110 Kingston Lane, Monmouth Junction, NJ 08852

The standard browser, Safari, that comes with iPads, iPods and iPhones does not allow the use of Flash. Flash is used to view Bookflix and TrueFlix stories. So, you need these helpful instruction for using BookFlix and TrueFlix on these devices.

- download **Photon browser** from the app store
- navigate to [South Brunswick Library's database page](#) using the Photon browser.
- BEFORE clicking Bookflix or Trueflix links click the lightning bolt icon on the Photon browser to put you in flash mode. This will reload the page. You need to do this on the [databases](#) page, otherwise you will not be directed properly to "TrueFlix (outside library) " or "BookFlix (outside library)" when you click them.
- log in with your library card bar code and you will be able to use either site.

There are some minor limitations:

- paging down on the [databases](#) page is a little slow in flash mode...it will take a moment to move down to the Trueflix link.
- the video can't be displayed full screen like most iPad video. But it does work and the audio plays.

For help with this contact the [South Brunswick Public Library Information Desk](#) at 732-329-4000, ext. 7286.
